SHORT DESCRIPTION:

Exciting role for a Technical Assistant to work in the renewable energy industry with an innovative successful start-up business, located in Berkeley Vale, NSW.

ABOUT THE COMPANY

Janus Electric's breakthrough technology utilises current electrical infrastructure to create a 100% carbon-zero solution for electrifying Australia's road transport fleet using renewable energy.

Janus Electric's solution has a unique ground-breaking battery technology developed by professional engineers and transport operators dedicated to providing Australian road transport businesses with a smarter, safer, and cleaner alternative that will put them at the forefront of the next phase of road transport globally.

ABOUT THE ROLE

Reporting to the Battery Foreman this position is suitable for an efficient and safety-minded person who has strong attention to detail. Preferably you should have experience in manufacturing or heavy vehicles and access to reliable transport is essential.

Our ideal candidate will be capable of working within a team, following directions closely, and willing to be part of a new and developing industry.

The ideal person will have

- Attention to detail
- Happy to perform repetitive work
- Able to communicate clearly
- Ability to plan and prioritise responsibilities
- Perform setup and clean-up tasks

SKILLS AND EXPERIENCE

- Proficiency in using tools and instruments
- Logical and clear thinking
- Problem-solving skills
- Strong attention to detail
- School leavers certificate is preferred

BENEFITS

- A great culture that is driven by making a difference
- Competitive hourly rates with regular reviews
- Career potential with a fast-growing start-up company! Grow with us!
- Work in an environment where you are encouraged to share innovative ideas and think outside the square
- Uniform supplied

HOW TO APPLY

If this role appeals to you, please email your application cover letter and resume to job@januselectric.com.au.
